

## Batteries

## BD – Series (Deep Cycle Battery)

BD 125, BD 205

Power class

125 Ah - 205 Ah

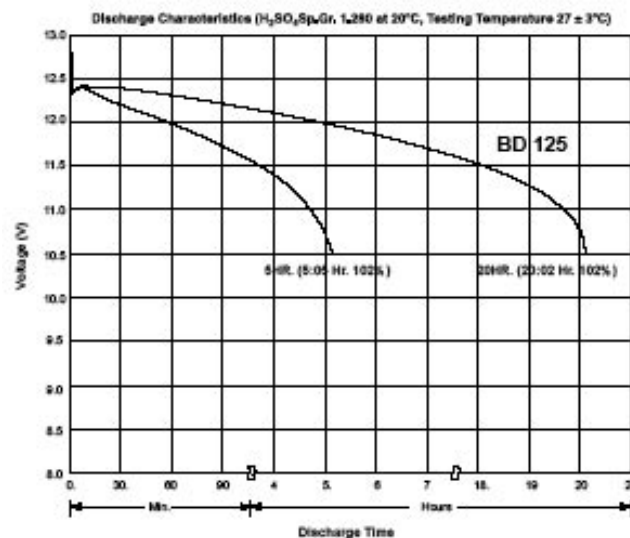

### Features

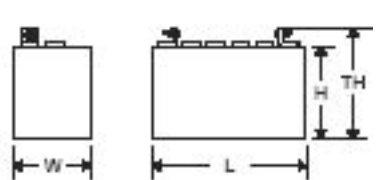

- Led acid battery
- High reliability
- Long service life
- Low self discharge
- Capable to discharge up to 80% of capacity
- Recycleable polypropylene container

### Handling and Storage

- Keep away from flame
- Never short across or spark the battery terminal with metal
- Wear protective gear i.e.: eye protector, apron and rubber glove to protect body while handling battery
- Batteries could cause ignition and explosion if it is mishandled

### GRAPH OF CAPACITY TEST\*

SH-No.:		120000	120001
<b>Battery</b>		<b>BD 125</b>	<b>BD 205</b>
Nominal Voltage		12 V	12 V
Nominal Capacity (at 5 / 20 hrs.)		100 Ah / 125 Ah	160 Ah / 205 Ah
Nominal Discharge Current (at 5 / 20 hrs.)		20 A / 6.25 A	32 A / 10.25 A
Recommended Final Voltages		10.5 V	10.5 V
Operating Temperature		30 - 35 °C	30 - 35 °C
Dimension	W x L x H	173 x 406 x 209 (241) mm	220 x 550 x 210 (255) mm
			
Weight	with / without acid	33.5 kg / 24.9 kg	51.0 kg / 38.5 kg
