

Gridfit Kit

## GRIDFIT KIT 240

gridfit kit

### GRIDFIT-KIT 240

The Gridfitkit 240 is a completed grid connectet solar power system with 240 Wp. Easy to install.

With a Grid Connected Solar Power System, clean solar power takes the place of grid power when the sun is shining, even to the point of selling a surplus back to grid. When the sun is not shining or when extra power is needed, electricity can be automatically purchased from the grid. Systems for residences, offices, stores or factories can be provided.

Approximate energy produced 260 kWh per year

### Price

#### Part 1:

- only components
- BHT approx: 81,500.00

#### Part 2:

- including components and installation / mounting and mounting system for modules
- briefing and initial startup of the solarsystem
- BHT approx: on request

### Components

- 2 Solarmodules Sharp à 120 Wp
- 1 GRIDFIT 250 Inverter
- kWh-Hour Meter (optional)

Every day the sun sends us sufficient energy to keep the total world population supplied with energy for years and years.
