

Grid Connected 3000 Kit

## GRID CONNECTED KIT 3000

grid 3000 kit

### GRID CONNECTED KIT 3000

The Kit 3000 is a completed grid connectet solar power system with 2880 Wp.

With a Grid Connected Solar Power System, clean solar power takes the place of grid power when the sun is shining, even to the point of selling a surplus back to grid. When the sun is not shining or when extra power is needed, electricity can be automatically purchased from the grid. Systems for residences, offices, stores or factories can be provided.

Approximate energy produced 2800 kWh per year

### Price

#### Part 1:

- only components
- BHT approx: 900,000.00

#### Part 2:

- including components and installation / mounting and mounting system for modules
- briefing and initial startup of the solarsystem
- BHT approx: on request

### Components

- 24 Solarmodules Sharp à 120 Wp
- 1 Sunny Boy SWR 3000  
(Made in Germany)
- optional: kWh-Meter

Every day the sun sends us sufficient energy to keep the total world population supplied with energy for years and years.
